

FABERGÉ

A LIFE IN COLOUR

Fabergé, the world's most iconic artist jeweller, creates extraordinary jewellery, timepieces and objets d'art, as well as bespoke commissions for a discerning international clientele.

Founded in 1842, Fabergé has been the most revered name in jewellery ever since Peter Carl Fabergé became official goldsmith to the Russian Imperial Court; the house created exquisite jewels and objects, including the legendary series of lavish and ingenious Imperial Easter Eggs.

Today, Fabergé takes inspiration from its storied past to introduce a new era of spectacular and contemporary collections. By painting with the world's finest coloured gemstones and a vibrant enamel palette, Fabergé celebrates a life in colour through creations destined to become future heirlooms.

TREILLAGE

The Treillage collection, inspired by the Diamond Trellis Egg, created by Fabergé in 1892, features soft, tactile and gem-set quilting.

FABERGÉ

OUR HERITAGE. YOUR LEGACY.

Continuing in the footsteps of its founder Peter Carl Fabergé, who employed work-masters, the best artisans in their respective fields, Fabergé today calls on the skills of exceptional movement-specialists to create astonishing and enchanting timepieces.

The design of these simple and complex watches for men and women is based on one core quality: the unexpected.

They combine the science of measuring time with the imaginative freedom of Peter Carl Fabergé. The collections represent a bold move in new directions, constantly adapting to the trends of the time, harnessing the power of technology and innovation to create wonderment.

...to somewhere you love

The bespoke design is overlaid with mother-of-pearl for a secretive finish, to ensure the personal message is obscure to all but the wearer.

Micro-structuration in platinum, an innovative decorative technique, is deployed to create bespoke designs within the central dial, for the perfect way to commemorate special occasions.
